The Australian flag showing the Southern Cross

Project group: WA street-lighting trials

- Western Australian Local Government Association (123 councils)
- Planners: University of Melbourne, Melbourne and Curtin University, Perth
- Ecologist/landscape architect, University of Melbourne
- Medical researchers Monash University, Melbourne
- Main Roads, Western Australia
- Energy provider and auditor of Western Australia
- Lighting experts
- History of street-lighting in Western Australia (engineer/historian)

- change the national and international conversations about LAN,
- change the policy climate in relation to LAN, particularly in relation to risk and insurance at local, regional and national levels,
- educate to change the habits of heart, mind and behaviours to accommodate dimmed or 'smarter' LAN in order to change our daily practices at the community scale.

Our trials in Western Australia

- 3 Local Government trial sites in Western Australia
- energy use and cost
- crime & community concerns of increased risk
- light in the street
- light into bedrooms, sleep, and sleep attitudes to street-lighting dimming and switching off street-lights

**Prud'hon: *Justice and Divine Vengeance Pursuing Crime*:
Addressing community concerns is fundamental to success**
